MANAGEMENT'S DISCUSSION AND ANALYSIS

MISSION AND OVERVIEW

The mission of the Open World Leadership Center (the Center) is to enhance understanding and capabilities for cooperation between the United States and the countries of Eurasia by developing a network of leaders in the region who have gained significant, firsthand exposure to America's democratic, accountable government and free-market system. Since its founding by Congress in 1999, the Open World Program, which is administered by the Center, has enabled over 24,000 current and future leaders from Russia, Ukraine, Armenia, Azerbaijan, Egypt, Estonia, Georgia, Kazakhstan, Kosovo, Kyrgyzstan, Lithuania, Moldova, Mongolia, Serbia, Tajikistan, Turkey, Turkmenistan and Uzbekistan to experience American democracy and civil society, work with their American counterparts, live in American families and communities, and gain new ideas and inspiration for implementing change back home. The Center is today the largest U.S.-Russia exchange program and a proven model for exchanges for leaders from other Eurasian countries.

The Center is an independent entity in the legislative branch governed by a board of trustees. Board members consist of members of Congress and private citizens. The Congressional leadership appoints congressional members while the Librarian of Congress appoints citizen board members.

The Center receives appropriated funds and is authorized to receive private donations. All funds credited to the Center are deposited in a United States Treasury trust fund, the Open World Leadership Center Trust Fund.

HISTORY

Congress established Open World in May 1999 as a Library of Congress—run pilot exchange for emerging Russian leaders. In late 2000, Congress created (Public Law 106-554) the Center as a separate legislative branch entity to manage the program, which had already hosted 3,500 Russians in 48 states. In 2003, Congress made the other New Independent States and the Baltic Republics eligible for Open World and expanded the Russia program to include cultural leaders. One year later, Congress extended Open World eligibility to any countries designated by the Center's board. Today, the original Russia program, the cultural leaders program for Russia and exchanges with other countries in the region are collectively called the Open World Program.

The Center conducts its programs with the help of many respected government agencies and non-governmental organizations (NGOs) in the United States and participating countries. A large pool of prominent U.S. and foreign government bodies and international NGOs nominate most candidates. Finalists are then selected by committees composed mainly of U.S. Embassy

staff. The U.S. visits are carried out by between 12-16 organizations with exchange-program expertise that the Center competitively selects and awards grants to each year. Some organizations receive grants directly due to their extremely low per person cost and/or their strategic importance to the Center for their ability to host special delegations. These organizations either host groups themselves or recruit local affiliates, civic organizations, educational institutions, and government bodies to do so. In addition to arranging the professional agendas, these local host organizations provide meals, lodging, and cultural and social activities. They also provide substantial cost shares to the program and form lasting professional relationships with the delegates, resulting in Open World providing one of the most cost-effective, result-driven exchange programs in the U.S. government.

The Center awards contracts for the international and domestic travel and other logistical and administrative arrangements for the program and other expert services. In the past, the Open World Alumni Program has been supported by private funding and administered through a contract. That program has been suspended pending additional funding.

The Center relies on the Library of Congress (the Library) through an interagency agreement to provide accounting services and support, financial reporting and financial statements, personnel and human resources services, legal services and office space.

OVERVIEW OF FINANCIAL STATEMENTS

Balance Sheet

The purpose of the Balance Sheet is to provide financial statement users with information about the Center's assets, liabilities, and net position as of fiscal years 2015 and 2014. The Center's net position consists of the funds authorized by Congress for operations of the Center since inception, private donations, and the net results of operations through fiscal years 2015 and 2014.

| | | | | Liabilities and | | | |
|---------------------|-----------|--------|------|------------------------------------|-------------|--------|------|
| Assets | (in mi | llions |) | Net Position | (in m | illion | s) |
| | 2015 | | 2014 | | <u>2015</u> | | 2014 |
| | | | | Intragovernmental | | | |
| Intragovernmental | \$ 2.7 | \$ | 5.3 | Liabilities | \$ 0.0 | \$ | 0.0 |
| Prepayments | 0.1 | | 0.1 | Other Liabilities | 0.6 | | 1.2 |
| | | | | Net Position | 2.2 | | 4.2 |
| Total Assets | \$ 2.8 | \$ | 5.4 | Total Liabilities and Net Position | \$ 2.8 | \$ | 5.4 |

The Center's assets total \$2.8 million and \$5.4 million for fiscal years 2015 and 2014, respectively with investments with the Department of the Treasury (Treasury) as the major item.

The decrease in total assets is primarily due to a decrease of \$2.4 million in Treasury investments from \$4.6 million in fiscal 2014 to \$2.2 million in fiscal 2015. The Center's liabilities total \$0.6 million and \$1.2 million for fiscal years 2015 and 2014 which consist of accounts payable, accrued payroll liabilities, and advances for both fiscal years.

Statement of Net Costs

The purpose of the Statement of Net Costs is to provide financial statement users with information about program costs. Program costs for fiscal years 2015 and 2014 were \$7.9 million and \$10.1 million, respectively.

Statement of Changes in Net Position

The purpose of the Statement of Changes in Net Position is to provide financial statement users with information about the Center's financing sources and the components of the changes in net position. The Center's net position decreased by \$2.0 million during fiscal 2015 due to the Center's net cost of operations \$8.0 million exceeding its net financial sources of \$6.0 million.

Statement of Budgetary Resources

The Statement of Budgetary Resources and the related disclosures provide information about how budgetary resources were made available as well as their status at the end of the period. The Budgetary Resources section of the statement presents the total budgetary resources available to the Center and information about the status of budgetary resources at the end of the period. Finally, the Net Outlays section presents the total outlays of the Center and relates obligations incurred to total outlays.

The Center's budgetary resources were \$12.2 million and \$20.3 million for fiscal years 2015 and 2014, respectively. Budgetary resources consisted of \$0.3 million and \$1.1 million of prior year unobligated balances, \$0.2 million and \$0.5 million recoveries of prior year unpaid obligations, transfers of prior year balances \$50 thousand and 3.3 million, and current year budget authority of \$11.7 million and \$15.4 million. Net Outlays of \$8.5 million and \$9.7 million consisted of \$5.7 million and \$9.3 million from appropriated sources, and \$2.8 million and \$0.4 million from non-appropriated sources for fiscal years 2015 and 2014, respectively. Please refer to Note 10 for an explanation of the budgetary resource amounts.

LIMITATIONS OF THE FINANCIAL STATEMENTS

The Center's financial statements are the culmination of a systematic accounting process. The statements have been prepared to report the financial position and results of operations of the Center, pursuant to the hierarchy of accounting principles and standards set forth in Note 1 to the financial statements. While the statements have been prepared from the books and records maintained by the Library of Congress, the statements are in addition to the financial reports

used to monitor and control budgetary resources which are prepared from the same books and records. The statements should be read with the realization that they are a component of the U.S. Government, a sovereign entity. One implication of this is that obligations and subsequent liabilities cannot be incurred without legislation that provides authority to do so.

Open World Leadership Center Notes to the Financial Statements

For the Years Ended September 30, 2015 and 2014

Note 1. Summary of Significant Accounting Policies

A. Reporting Entity

The Center, a legislative branch agency of the federal government was established by Public Law 106-554 to bring political and civic leaders to the United States to meet their American counterparts and experience American style democracy and free enterprise in action. The Center relies primarily on appropriated funds to support its programs and operations. Budget requests are subject to review by the House Appropriations and the Senate Appropriations Subcommittees on Legislative Branch. The Center also receives funds from other federal agencies and gifts from the public to carry out its operations.

The Center's programs and operations are governed by a board of trustees. Board members consist of members of congress (appointed by the congressional leadership) and private citizens (appointed by the Librarian of Congress).

B. Basis of Presentation

The accompanying financial statements report the financial position, net costs, changes in net position, and budgetary resources of the Center for fiscal years 2015 and 2014. These statements and schedules include amounts of all funds designated by law and managed for the purpose of the Center. The statements were prepared from the Library's financial management system in accordance with the form and content for entity financial statements specified by the Library's financial management regulations and directives and the accounting policies summarized in this note.

The Center maintains its fund balances with the Treasury and submits information required to incorporate its financial and budget data into the overall federal government structure. For purposes of financial management and reporting, the Center follows Library regulation (LCR 1510) which adopts the federal standards for financial reporting and internal controls in a manner consistent with a legislative agency.

C. Basis of Accounting

Transactions are recorded on the accrual basis and are within budgetary limitations established to facilitate compliance with legal constraints and controls over use of federal funds. Under the accrual method, revenues are recognized when earned and expenses are recognized when incurred, without regard to receipt or payment of cash.

The Center's financial statements conform to accounting principles generally accepted in the United States of America as promulgated by the Federal Accounting Standards Advisory Board

(FASAB). The American Institute of Certified Public Accountants recognizes FASAB Standards as generally accepted accounting principles for federal reporting entities.

The statements were also generally prepared based on guidance published in the Office of Management and Budget (OMB) Circular No. A-136, Financial Reporting Requirements. The Center is not required to adopt this circular, and accordingly has elected to use the disclosures management deems necessary for the fair presentation of financial statement information.

D. Use of Estimates in Preparing Financial Statements

The preparation of financial statements, in conformity with federal accounting standards, requires management to make estimates and assumptions. These estimates affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements, and the amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Note 3. Investments, Net

Funds that are not needed to finance current activities are invested in interest-bearing obligations of the United States. The Center has directed the Library to invest funds derived from contributions in Treasury securities. Due to the short-term nature of the investments, the cost of investments in conjunction with accrued interest approximates their fair market values. Investments outstanding were \$2,213,010 and \$4,635,103 for fiscal years 2015 and 2014. Average annual investment rates were 2.0% and 2.0% in fiscal years 2015 and 2014.

In fiscal years 2015 and 2014, \$72,619 and \$73,490 had been paid to but not yet used by these organizations to carry out their services.
